

MUSTAFA ÖZYÜREK

Software engineer student

+41 762462576 mustafaaozyurek@hotmail.com

EDUCATION

Master in Software engieering with AI
Università della Svizzera italiana
2026-2028 (expected)

Bachelor of Science in Informatics
Università della Svizzera italiana
2022-2026

Swiss Commercial Matura (Cantonal Level)
Scuola cantonale di Commercio
2017-2022

Swiss Federal VET Diploma – Commercial Employee (EFZ)
Scuola cantonale di Commercio
2017-2022

TECHNICAL SKILLS

Programming Languages
Java, Python, C, C++, SQL, JavaScript

Web & Frontend
HTML, CSS, SmartUI (SmartPages)

Backend & Database
Spring Boot, MongoDB, Node.js, REST APIs

Tools
Git

LANGUAGES

- Italian - Native
- Turkish - Native
- English - Advanced

PROFILE

Computer Science graduate currently pursuing a Master's degree in Software Engineering with AI, with a strong interest in software development, system design, and artificial intelligence. Through academic and industry projects, I have gained practical experience in frontend and backend development, AI service integration, and enterprise applications. I am motivated to further strengthen my technical expertise and contribute to the development of reliable, well-structured, and intelligent software systems.

WORK EXPERIENCE & PROJECTS

Bachelor Thesis — Autonomous Vehicles · 2025–2026

• Analyzed real-world incidents to identify anomalous human driving behaviour.
• Developed a pipeline to turn selected incidents into CommonRoad simulation scenarios.
• Integrated LLMs to support anomaly classification and scenario generation.
• Refined and validated multi-vehicle scenarios and their critical interactions.

AnswerConsulting — Internship · 2025

• Contributed to AI-driven workflows in an Enterprise Content Management (ECM) system.
• Developed frontend components with JavaScript and SmartUI (SmartPages).
• Integrated AI services into the user interface.
• Managed API communication with Groovy backend services.

Software Atelier 4 — AI Learning Platform · 2025

• Contributed to scoped frontend and backend tasks in a team-built AI learning platform.
• Project stack: Vue 3, TypeScript and Spring Boot.

Fentus Stock Market · 2024–2025

• Contributed primarily to backend development and initial data collection in a team project.
• Stock search with filters, pagination and attribute-based suggestions; Python, Flask and Apache Solr.
